

For You

John Legend

All of the kisses that a kisser could kiss
All of the hugs that a hugger could give
All of the smiles and tickles too
I saved them all for you

All of the magical spells I know
All of the treasures waiting by the rainbow
All of the riddles and giggles too
I saved them all for you

You're my little special, special love
And you deserve that special, special stuff
I put it in a secret hiding place
And saved it for my baby, baby, baby, baby, baby

All of the sweetest little sweets you'll taste
All of the sunshine to shine on your face
All my favorite melodies and tunes
I'll sing them all for you

'Cause you're my little special, special love
And you deserve that special, special stuff
I put it in a secret hiding place
And saved it for my baby, baby, baby, baby, baby

I saved it for the rainy days that may come
Saved it for whenever you want some
Saved it for your future 'cause it's mine too
I saved it all for you

All of my hopes and dreams will come true
I saved them just for you
