

One Last Dance

John Legend

Sometimes I wander down the street
The place I swept you off your feet
I haven't seen you here in a while
That drink you love still taste the same
The DJ hasn't changed
Just put on our favorite record right now

When our melody plays
And I see your face
The memories waste
Right by to me

And I hope you give me one last dance
Head on my shoulder like it ain't over
Oh, this moment gave us one more chance
Why don't we hold it before the bar closes?
One last dance, one last dance
One last dance, one last dance (Oh, yeah)

Is it wrong to reminisce?
Is it wrong to steal a kiss?
It's someone waiting for you at home
Woah, tonight could breathe it on the night
A fleeting glimpse, what could we might've been
That we had never let go?

Oh, when that melody plays
I whisper your name
I want you to stay
Right next to me

And I hope you give me one last dance
Head on my shoulder like it ain't over
Oh, this moment gave us one more chance
Why don't we hold it before the bar closes?
One last dance, one last dance
One last dance, one last dance (Oh, yeah)

Oh, when that melody plays
The crowd starts to fake
I need you to stay

And I hope you give me one last dance
Head on my shoulder like it ain't over
Oh, this moment gave us one more chance
Why don't we hold it before the bar closes?
And I hope you give me one last dance
Head on my shoulder like it ain't over
Oh, this moment gave us one more chance
Why don't we hold it before the bar closes?
One last dance, one last dance (Oh, yes)
One last dance, one last dance
One last dance
