

One Life

John Legend

Time stands still
When you feel like I feel
I forget where I was goin'
But I know who I'ma go with, it's you

We're in motion, and I'm emotional, and I'm all over you
So whatchu wanna do?

Oh, if you don't mind
Closing your eyes
Just give me your time
'Cause you've got all mine

We've got one life
I won't waste it, one life
I'm gon' taste the joy in every minute
Beginnin' till the finish
We've got one life
Get lost together, one life
We'll go wherever, till the ride is over
Everywhere and nowhere, we'll go...

Where we'll go
We don't know
Everywhere and nowhere, we'll go...
Where we'll go
We don't know
Let's go everywhere and nowhere

Days turn night
Let's bathe in the moonlight
Dance around the stars
Maybe go too far

Sensational
No particular place to go
Feeling insatiable
Like even outer space could be attainable

But if you don't mind
We'll let our love fly
Just give me your time
'Cause you've got all mine

We've got one life
I won't waste it, one life
I'm gon' taste the joy in every minute
Beginnin' till the finish
We've got one life
Get lost together, one life
We'll go wherever, till the ride is over
Everywhere and nowhere, we'll go...

Where we'll go
We don't know
Everywhere and nowhere, we'll go...
Where we'll go

We don't know
Let's go everywhere and nowhere

I wanna take you everywhere and maybe nowhere (Let's go out tonight)
I wanna take you (Go out tonight)
I wanna take you there (Yeah)
I wanna take you everywhere and maybe nowhere (Let's go out tonight)
I wanna take you (Go out tonight)
I wanna take you there

Ooh, if you don't mind
We'll let our love fly
Just give me your time
'Cause you've got all mine

We've got one life
I won't waste it, one life
I'm gon' taste the joy in every minute
Beginnin' till the finish
We've got one life
Get lost together, one life
We'll go wherever, till the ride is over
Everywhere and nowhere, we'll go...

Where we'll go
We don't know (Come on)
Let's go everywhere and nowhere, go-go-go, yeah-yeah
Where we'll go
We don't know
Let's go everywhere and nowhere
