

Safe

John Legend

You can lay here
You'll be safe here
Safe from harm
Here in my arms
I'll be your shoulder
When it's cold
You're safe from harm
Here in my arms

Oh, the waves may come crashing all around you
They won't pull you away
Darling, you can just let my love surround you
I know you'll be okay
I will keep you safe

Oh, you can lay here
You'll be safe here
Safe from harm
Here in my arms
I'll be your shoulder
When it's cold
You're safe from harm
Here in my arms

When you're lost, dear, my love will surely find you
And I'll carry you home
If you're forgetting, then my love will remind you
No matter where you go
You're not alone, not alone

You can lay here
You'll be safe here
Safe from harm
Here in my arms
I'll be your shoulder
When it's cold
You're safe from harm
Here in my arms

You can stay here
You'll be safe here
Safe from harm
Here in my arms
You can stay here
You'll be safe here
Safe from harm
Here in my arms
