

## We Loved It

John Legend

Come sweetly  
Stab me through the shadow of an open door  
Weep quietly now  
Take us through the helplessness of it all

And I wonder as I watch you slip away somehow  
Wonder if the only thing that's left is now  
Wonder if I ever went away, will I ever love again  
Will I ever love again

Oh, lie to me  
Lie to me, tell me I'm not wasting time  
Yeah, yeah  
Oh, convince me you miss me  
Your heart still beats as fast as mine  
Tell me lies

We loved it  
Loved it even more than we know  
We lost it  
And I don't even know what to do  
Tell me what to do

Cause I wonder why it had to slip away somehow  
I wonder if you ever wanna see me now  
I wonder if I'll ever be the same  
Will I ever love again  
Will I ever love again

Oh, your eyes haunt me  
Taunt me, pierce straight through my heart again  
Will it ever end  
Cause I wonder as I watch you slip away somehow  
I wonder if you ever wanna see me now  
Wonder if I ever went away, will I ever love again  
Will I ever love again

We loved it, we loved it  
We lost it, we lost it
