

# We Need Love

John Legend

Too many brothers falling  
Too many mothers cry  
Too many prayers are bounced back from the sky  
Too much talk and too much cheat  
Too many fathers losing sleep  
Too many broken hearts we can't make right

We need love, love, love  
We got to fight for, we got to fight for  
Love, love, love  
We've got a right to, we've got a right to  
Love, love, love  
Is the only thing  
There just ain't enough of  
There just ain't enough of

Too many bridges burning  
Too many battle lines  
Too many wounded dreamers left behind  
Too much time spent building walls  
Was what we found worth what we lost?  
Too many pages that we can't rewrite

We need love, love, love  
We got to fight for, we got to fight for  
Love, love, love  
We've got a right to, we've got a right to  
Love, love, love  
Is the only thing  
There just ain't enough of  
There just ain't enough of

(All we need, all we need is a little love)  
(All we need, all we need is a little love)  
All we need is a little love  
(All we need, all we need is a little love)  
(We need love, love, love, a little love)  
All we need is love, yeah

Too much talk and too much cheat  
(All we need, all we need is a little love)  
Too many fathers losing sleep  
Too many broken hearts we can't make right  
(All we need, all we need is a little love)

Oh we need love, love, love  
Is the only thing  
There just ain't enough of
