

# We're A Family (Solo Piano)

John Legend

All your little worries gonna be okay  
All of your troubles gonna melt away  
'Cause I've got you  
And you've got me  
And we're a family

Our little world'll keep spinnin' 'round  
I'll pick you up whenever you feel down  
Yes, I love you  
And you love me  
And we're a family

Oh, we're gonna build a life together  
Bound forever  
We'll love forever

We'll grow and grow our little family tree  
And you will see that

All your little worries gonna be alright  
Just close your eyes, go to sleep tonight  
'Cause I've got you  
And you've got me  
And we're a family

Dream all the fairy tales that you've been told  
All of the rainbows with pots of gold  
They wait for you  
I'll dream them too  
And maybe they'll come true

We'll float up into the sky together  
Fly together  
We'll love forever

We'll soar and soar right through the galaxy  
Our family, oh-oooh  
Ooh-oooh

All your little worries won't stay that way  
Sleep till you wake up in a brand new day  
Where I still love you  
And you love me  
And we're a family

Oh, I've got you  
And you've got me  
And we're a family

Ooh-oooh  
Ooh-oooh-oooh  
We're a family
