

# When I Feel Sad

John Legend

When I feel sad  
I think of all that makes me glad  
I think of all the good times that we've had  
And I don't feel so bad

Raindrops fall, let 'em pitter, pitter, patter  
Thunder rolls, let it roll, it don't matter  
Lightning striking  
But I know we'll be okay  
Okay

The sun will come  
And we'll forget the skies were gray  
They were never meant to stay  
No  
Remember what I always say  
I say

When I feel sad  
I think of all that makes me glad  
I think of all the good times that we've had  
And I don't feel so bad  
When I feel blue  
I think of what I love like you  
I think of how it's cool you love me too  
And I don't feel so sad  
I don't feel so bad

Think of me when you're down, when you're lonely  
Think of love, let it chase all your sads away  
I promise things will be okay  
My baby

When I feel sad  
I think of all that makes me glad  
I think of all the good times that we've had  
And I don't feel so bad  
Oh, when I feel blue  
I think of what I love like you  
I think of how it's cool, you love me too  
And I don't feel so sad  
No, I don't feel so sad

Oh, I don't have to feel so bad
