

When We Fly

John Legend

Have I ever told you
My favorite dream?
The one I hope for
Every time I sleep

Where I soar the skies
Over everything
With my arms wide open
With my arms as wings

Don't you wanna float away now?
Don't you wanna feel the dream?
Don't you wanna go so high?
We'll feel alive and free

When we fly
When we fly
When we fly
When we fly
Only limit is the sky
When we fly
Only limit is the sky
When we fly

We can fly
Go la, la, la, la, la tonight
When we fly
Only limit is the sky
When we fly
Only limit is the sky
Oh

The stars are closer
The moon's in view
Oh, we're out here coastin'
In the midnight blue

Oh, we're gonna float away now
Oh, we're gonna ride the breeze
Yes, we're gonna go so high
Where we're supposed to be

When we fly
When we fly
When we fly
When we fly
Only limit is the sky
When we fly
Only limit is the sky
When we fly

Oh, we can fly
Go la, la, la, la, la tonight
Only limit is the sky
When we fly
Only limit is the sky

Oh-oh-oh-oh
Oh-oh-oh-oh
Yeah, only limit is the sky
Only limit is the sky

Oh, we can fly
Go la, la, la, la, la tonight
Only limit is the sky
When we fly
Only limit is the sky, oh

Go la, la, la, la, la, la
La, la, la, la, la, la
La, la, la, la, la, la, la
When we fly
