

Prove My Love

John Mark McMillan

I float around in a hollow dream
Fix my eyes like a laser beam
Have I been haunting my own house?
I've grown thin, translucent skin
Walls wouldn't hold the devil in
Wouldn't let me out, You call me out

And we don't make a promise in the fever pitch
Up against the wall, gonna see what sticks
Then we go looking for an easy fix
Before it comes tumbling down
Will we break honest in the fever dream?
Up against the wall, gonna see what leans
Then we go looking for the easy means
Before it comes tumbling down

I'm gonna prove my love
I'm gonna prove my love
You know you couldn't lose my love
So baby, don't confuse my love

And we don't make a promise in the fever pitch
Up against the wall, gonna see what sticks
Then we go looking for an easy fix
Before it comes tumbling down
Will we break honest in the fever dream?
Up against the wall, gonna see what leans
Then we go looking for the easy means
Before it comes tumbling-
I'm gonna prove my love
I'm gonna prove my love
You know you couldn't lose my love
So baby, don't confuse my love

Before it comes tumbling down

I'm gonna prove my love
You know you couldn't lose my love
So baby, don't confuse my love
