

## Acid Rain

John Martyn

The rain came down  
I heard the sound of yesterday's tv  
Rain came down  
Burning down the highway  
Rain keeps falling  
Raindrops keep on fooling me  
Rain keeps falling  
Raindrops keep on getting in my eyes

The rain fell down  
I heard the sound of yesterday's tv  
Rain fell down  
I heard the sound of politicians  
The words keep failing  
The words that keep on fooling me  
Raindrops falling  
Falling in my eyes

Every time it rains, I turn the tv on  
Every time it rains, I run away and hide  
Every time it rains, I run on home to mama  
Every time it rains - acid rain  
Acid stripping rain  
Heard the rain  
Acid rain, acid stripping

Rain keeps falling, falling on us everyone  
Rain keeps falling, burning in our eyes

Every time it rains, I run away and hide  
Every time it rains, I cover up my head  
Every time it rains, I run into my house

Every time it rains, burning in my eyes  
Every time it rains, I run on down the lane  
Every time it rains, I cover up my eyes  
Every time it rains, I run on home to mama  
Every time it rains, I've got to call the children home  
Every time it rains, I cover up my head  
Every time it rains, I cover up my garden  
Every time it rains, dripping in my eyes

Every time it rains, acid rain  
You can't fool me, it's not water at all  
Just acid rain, dripping from the skies  
Acid rain, just burning in my eyes
