

Under My Wing

John Martyn

All your childhood dreams
All your adult schemes
All the strangest dreams and thoughts
And secrets stay with me.

All the backroom dancing
Everyday just chancing
Empty glass romancing
You know, your secrets stay with me.

Come under my wing
Come under my wing
Come under my wing
Come under my wing.

Every long long day
Every silly thing that you say
All the weird play
Your secrets stay with me.

Come under my wing
Come under my wing
Come under my wing
Come under my wing.

Should you ever find yourself in trouble
I'll be the river to wash your blues away
If you find yourself on the run.

Come under my wing
Come under my wing
Come under my wing
Come under my wing.

All your childhood dreams
All your adult schemes
All your strangest dreams and thoughts
And secrets stay with me.

Come under my wing
Come under my wing
Come under my wing
Come under my wing.
