You Know

John Martyn

In all this mad excitement
Isn't it fine to know
That love is real
And what we feel
Is all we have to show
In all this gay confusion
It's a comfort just to see
That what you say
Is what you mean
The words are meant for me

Let people say just what they will
As time goes by, I love you still
You are my love
They think they know us, but they don't
They never will, I know they won't
They never will

You know, I tell you so
I know, cos you tell me
You know cos I tell you so
And I know, you tell me

Every day I see your face
It makes this world a better place for me to be
A better place for me to be
And every time I touch your hand
My troubles fade like grains of sand, and trickle away

People say just what they will
As time goes by, I love you still
You are my love
Think they know us, but they don't
They never will, I know they won't
They never will
And I don't care

You know, cos I tell you so
I know, cos you tell me
You know cos I tell you so
I know, cos you tell me

You know, cos I tell you
I know, cos you tell me
You know
I know cos you tell me
It's true
