

Because We Built It

John Maus

Because we built it
With strength, we wield it
We can watch it go up in flames
Because we killed it
With pride fulfilled it
We will watch it go up in flames

Because we killed it
Because we killed it
We will watch it go up in flames
Because we killed it
Because we killed it
We will watch it go up in flames

Because we killed it
Because we killed it
We will watch it go up in flames
Because we killed it
Because we killed it
We will watch it go up in flames
