

## Came & Got

John Maus

This is several times for me  
Sent me several times, had to wait before they  
Just several times, get away from me  
And then they came, and they took it away, away

People in the dark across the world  
People in the dark across the world  
People in the dark across the world  
People in the dark across the world

This is several times for me  
Sent me several times, had to wait before they  
Just several times, get away from me  
And then they came, and they took it away

This is several times for me  
Sent me several times, had to wait before they  
Just several times, get away from me  
And then they came, and they took it away, away

People in the dark across the world  
People in the dark across the world  
People in the dark across the world  
People in the dark across the world
