

Love

John Maus

I had a dream last night and you were in it
I feel so stupid when you are around
I long for you, I long for you, I hate you
I think I'll put a bullet in my head

I'm burning up for you
All the time I'm wondering if I'll see you
I'm burning up for you
'Cause you got that...

I'd cut off all my fingers just to touch you
You stupid bitch, you mutilate my soul
I want to put my fingers deep inside you
I wonder if you're thinking of me now

You got that...

It doesn't make any sense
And it doesn't adhere to the reason at all

I had a dream last night and you were in it
I feel so stupid when you are around
I long for you, I long for you, I hate you
I think I'll put a bullet in my head

I'd cut off all my fingers just to touch you
You stupid bitch, you mutilate my soul
I want to put my fingers deep inside you
I wonder if you're thinking of me now
