

# Old Town

John Maus

when the city gets you down you've got to go back home to your  
old town to your old town to your old town to your old town to  
your old town to your old town

when the traffic light makes you frown you've got to go back ho  
me to your old town to your old town to your old town to your o  
ld town to your old town

the sound of wind blowing through the grass and familiar street  
s waiting for you in the old town in the old town in the old to  
wn in the old town
