

## Another Kinda Love

John Mayall

Poor little baby, you've got to love her, she's a girl  
Poor little baby, you've got too caught up in the world  
I've got to say you lost your way  
She's a woman, another kind of woman, another kind of love

Poor little baby, you had the misery and you fell  
Poor little baby, you've got a secret you can't tell  
I've got to say you lost your way  
She's a woman, another kind of woman, another kind of love

Poor little baby, you won't ever be satisfied  
Poor little baby, you've got to run, you just can't hide  
I've got to say you lost your way  
She's a woman, another kind of woman, another kind of love
