I've Got To Talk To You

John Mayall

I've got to talk to you
We've got to share the truth
I want to talk to you
Let us get down to the root
I've got to know you hear
'Cause if we say it clear
At the end of the day
I'll be more and more in love with you

I've go to talk to you
Baby, let's get down
I wanna bear my soul
No more messin' around
You got to say it straight
I'll try to illustrate
At the end of the day
I'll be more and more in live with you

We've been together so long
Yeah, we got to keep it strong
Skies have been sometimes grey
But you know how much I wanna stay

Want you to listen to me
Gonna say it carefully
It might be hard to hear
I don't mean to interfere
Do whatever it takes
Until there's no mistakes
And at the end of the day
I'll be more and more in love with you

I've got to talk to you
Gotta get behind the words
So baby please respond
And let me know you've heard
'Cause I believe we can
Now I'm your talkin' man
At the end of the day
I'm feelin' more and more in love with you
