Loaded Dice

John Mayall

I've seen the way she's throwin' you in
And I know it's so hard to resist
She makes it look so easy to win
You're thinkin' you just can't miss

Before you go and take that chance
You'd better understand
She's playin' with loaded dice
A good man don't stand the chance

When you put your love in her hands
Get ready to tumble and fall
Roll with her as long as you can
She'll play you, just she takes it all

She is gonna get to you
It's just the way she can't lose
She's playin' with loaded dice
A good man don't stand the chance

You put your love on the line
She'll take you for all she can
You can bet your life
She's playin' with loaded dice

Though you know the cards have been marked
Though you know the wheel is fixed
You follow her into the dark
Just to see how she does that trick

Take it from someone who knows
The world is nothing but a game
If you give your heart and soul
You only have yourself to blame

She's playin' with loaded dice
A good man don't stand the chance
If you put your love on the line
She'll take you for all she can

You can bet your life
She's playin' with loaded dice

You can bet your life
She's playin' with loaded dice
You can bet your life
She's playin' with loaded dice
Yeah, bet your life
She plays with loaded dice
Playin' with loaded dice
