

## Sugarcane

John Mayall

Once I had a little girl  
Brought a smile into my world  
So sweet she had a name called her sugar cane

Sugar cane was natural born  
Cajun from the country lord  
I swear she was the sweetest thing I loved that sugar cane

Sugar cane would go to town  
And all the men folk turned around  
Makin' eyes they'd want to try to steal her away from me

But I got my knife and I'd hold her hand  
So them boys would understand  
Don't mess around I mean it man I love my sugar cane

And then one day she had to leave  
And travel far away from me  
Lord I was lonesome like I'd never been before

And then one night I fell asleep  
And dreamed she had come back to me  
And when I woke next morning, yes she's knocking on my door

I said sugar cane  
Ya done come back baby never gonna leave again
