

WORLD GONE CRAZY

John Mayall

Guilty, I said we're guilty
Living in some crazy times
Politicians, but politicians
Shoving off their crazy lives
Using up situations just to cry

Religion, I said religion
Always have the rule of a wall
But Christians and the Muslims
Never get along, no, no
They're killing everybody
But it's like [?]

Crazy, the world is crazy
The sky will be a better day
It's all amazing that what comes blazing
There's got to be a price to pay
Cause bombs in the wrong hands
Lord, will take our lives aw

Guilty, I said we're guilty
Chaos in the world today
Crazy leaders, and not believers
Governments in [?]
Madness all around us
This is gonna be a reckoning day
With madness all around us
This is gonna be a reckoning day
