

# Hummingbird

John Mayer

Once upon almost every mornin  
I woke up to find her flyin in  
Hummingbird was making blurs of  
Blue and rings of purple in the air

All the while, I was trying to keep her there  
Not man enough to need  
But man enough to always care

Hummingbird  
Hummingbird  
That song I heard  
That's my hummingbird

Just because I said I didn't want her  
Doesn't mean I want her to go  
In fact I quite depended on her  
But that I didn't want her to know

Now that she's gone I know  
All the while, I was trying to keep her there  
Not man enough to need  
But man enough to always care, always care  
Hummingbird  
Hummingbird  
That song I heard that's my hummingbird  
Hummingbird

Hummingbird
