

# Out of My Mind

John Mayer

I'm putting you baby  
I'm putting you right out of my mind  
I'm putting you baby  
I'm putting you right out of my mind  
So tired of running after you girl  
And being one and one half steps behind

Go tell your friends now  
Go tell your friends what Johnny did  
Go tell your friends  
Go tell your friends just what Johnny did  
If they don't tell you that you're crazy baby  
Lord, they're as messed up as you is!

(Let me play my guitar people!)

(Let me play my guitar people!)

I'm putting you baby  
I'm putting you out of my mind  
mind, mind mind,  
I'm putting you, baby  
I'll put you right out of my mind  
So tired of running after you girl  
And being one and one half steps behind
