

Colored Lights

John Mellencamp

Look here baby
I'm too embarrassed to talk to you
'Cause every eye that I see
Every guy in this room
Is looking to talk, only to you
How do you talk to an angel?
I wish I knew

And when the room goes dark
They're going to turn on the colored lights
I've been sending you out my signal now
Little girl can't we dance tonight?
And when the room goes dark
They're going to turn on the colored lights

He-hey baby
Use your imagination now, won't you please?
And try to think about me making a move
I could walk, but I'm down on my knees
You know I've learned some lessons now
I bet you've learned some too
When the blue mist fills up this room
The colored lights are going to shine on me and you

And when the room goes dark
They're going to turn on the colored lights
I've been sending you out my signal, cryin'
Little girl can't we dance tonight?
When the room goes dark
We're going to turn on the colored lights

And when the room goes dark
They're going to turn on the colored lights
I've been sending you out my signal now
Little girl can't we dance tonight?
When the room goes dark
We're going to turn on the colored lights

I've been sending you out my signal now
Little girl, can't we dance tonight?
When the room goes dark
When the room goes dark
When the room goes dark
They're going to turn on the colored lights
