

I Know Better

John Morgan

I used to think that catching a lynchburg buzz
Was the best kinda Friday night
I never thought I could get any higher
Then that mile high time out in telluride
Didn't think my heart could ever beat as fast
As when I hit a hundred and twenty on the dash
It's funny looking back on everything I did
Thinking that was good as it gets

Cause I know better days
Better nights
A better way of living lost in your eyes
Up on cloud nine feeling things I thought I'd never
There ain't no better smile
Ain't no better kiss
Ain't a memory I've made that compares to this
I thought the best part of my life was in the past forever
But now that I know you
I know better
Ooh baby, I know better

I know better than to think I could backtrack
And get by on my own
I know better than to think these two by four walls could feel like a home
Yeah girl, without you here my world wouldn't be spinnin'
Back then don't look as good as when I was in it

'Cause I know better days
Better nights
A better way of living lost in your eyes
Up on cloud nine feeling things I thought I'd never
There ain't no better smile
Ain't no better kiss
Ain't a memory I've made that compares to this
Thought the best part of my life was in the past forever
But now that I know you
I know better
Mhmm yeah, baby, I know better

Now that I know your touch
And I know your heart
Now that I know your love
Girl, I ain't in the dark

'Cause I know better days
Better nights
A better way of living lost in your eyes
Up on cloud nine feeling things I thought I'd never
Yeah, there ain't no better smile
No better kiss
Ain't a memory I've made that compares to this
I thought the best part of my life was in the past forever
But now that I know you
I know better
Oh yeah
Ohh baby, I know better
