

That was me standing right by the door  
That was me in the corner on the floor  
That was me when you prayed and asked for more  
Did you see me...  
That was me when your body was in pain  
That was me when you felt you were insane  
That was me that brought you out of the rain  
Did you see me...  
Though you may feel, in life you walk alone  
In order to carry on  
You need to see my face  
I'm not in your darkest place

You need to see me in saddest situation  
See me in the trial of your temptation  
In my lowest state, the dark I'll illuminate  
So you can see my face-everyday

That was me that caused the sun to shine  
That was me when you were losing your mind  
That was me that showed the rainbow as a sign  
Did you see me...  
That was me that gave you a vision in your heart  
That was me that gave you faith enough to start  
That was me that lit the candle in the dark  
Now Did you see me...  
Though you may feel, in life you walk alone  
In order to carry on  
You have to see my face (my face)  
I'm not in your darkest place

You need to see me in saddest situation  
See me in the trial of your temptation  
If you pray by faith (pray by faith)  
I shall not delay (no I won't)  
Then you shall see my face (you gotta see my face)  
Oh yes

Yeah, yeah, yeah

So you can see my face...

I need to see you in the saddest situation  
See you in the trial of my temptation  
If I guild today (I will make a way yes I will)  
I want to see your face (so you can see my face)  
I wanna see ya  
(see me and you finally)  
I'll find you yes I will  
Then you will see my, face.
