

# It's Gonna Get Better

John P. Kee

Look at the economy or my  
Oil and gas are at an all-time high  
Some imported foods with e. coli  
Many banks are merging over night

But I can see the sun shining  
A better day is coming  
Changes on the way I believe it  
I just got to keep on running

It's going to get better, it's got to get better...

All these snow storms in my life  
When will the hail stop  
Cold winter times walking from my mailbox  
Bills pilling up while my job sells drops  
Feeling consumed but your compassions fails not  
Yeah, I doubt sometimes, I hit my knees as crown  
But then I rewind my mind for the prime  
Because I forgot you're faithful  
Kept my family stable  
Kept the plate full  
Like Hezekiah, Lord, I'm grateful

Look at the economy, oh no  
A man has lost his house nowhere to go  
Now he feels he's lost and all alone  
Brothers and my sisters, please, hold on

But I can see the sun shining  
A better day is coming  
Changes on the way I believe it  
I just got to keep on running

It's going to get better, it's got to get better...

Better better better better...

You've got to hold fast to what you know  
Even when it looks bad let your praises show  
I just believe a God that loves me, dear  
Wouldn't let me go through without a miracle near  
So I stand on my faith and I rebuke all doubt  
And I believe, God's gonna bring me out  
When I wake up in the morning, I lift my hands in praise  
Even in life's stages, he'll bless me everyday

It's going to get better, it's got to get better...
