

Secrets

John Parr

There's a girl on the roof
Like a bird on a wire
It's a moment of truth
In a lifetime of liars

There's a voice in her head
Driving her crazy
She moves close to the edge
And says no one can save me

Then she sees him
His cigarette glows in the dark

Tell me your secrets
I'll tell you mine
Your heart's been broken
So many times
Tell me your secrets
Confess your crime
Who you deceivin'
Don't leave it sleeping
Tell me our secrets

There's a crowd in the street
And some freak with a video
Every heart skips a beat
And it looks like she's letting go
But a hand reaches out
And catches her tightly...

And he saves her
He wipes tears from her eyes

Tell me your secrets
I'll tell you mine
Your heart's been broken
So many times
Tell me your secrets
Confess your crime
Who you deceivin'
Don't leave it sleeping
Tell me our secrets

He gets up and walks away
He never looks back
Just fades away
She's safe now

Tell me your secrets...
