I'll Never Be the Same

John Pizzarelli

She was just passing through I was just out for tea
She was headed round the world I have a meeting at three

And I'll never never be the same again
Never be the same never be the same
Never be the same never be the same again
Since we brushed briefly in the wind

She was readin' Will Durant I was halfway through The Times
Shew had dirty plimsolls on my city shoes were shined

And I'll never never be the same again...

She caught the Hovercraft I caught the Underground
She went to Luxembourgh I came on back uptown

And I'll never never be the same again...
Since we brushed briefly in the wind
