

Santa Claus Is Near

John Pizzarelli

That special time is coming
The kids are on their best
The cold at times is numbing
From the east coast to the west

Snowflakes keep on falling
As it's jingle bells I hear
Well. Let's all be good
Like we know we should
Cos Santa Claus is near

Let's all get in the spirit
By gathering round the fire
When the snow piles up we'll clear it
But then we'll let him climb much higher

So maybe a late night sleigh ride
It's the best night of the year
When we go to bed while over a head
Santa Claus is near

Here comes Santa
Riding in his sleigh
Here comes Santa
My roof is his runway

Freshing up the brandy
And call up all your kin
Keep up flashlight handy
In case the big guy wants to come in.

Or maybe we'll just keep sleeping
So as not to interfere
For tonight's the night and all is right
When Santa Claus gets here.

~~~~~  
~~~~~

Oh, here comes Santa
Oh, he's riding in his sleigh
Here comes Santa
My roof is his runway

That special time is coming
The kids are on their best
The cold at times is numbing
From the east coast to the west

Snowflakes keep on falling
As it's jingle bells I hear
Well, let's all be good
Like we know we should
Cos Santa Claus is here

Here comes Santa
Here comes Santa
Here comes Santa

Santa Claus is near
