

## The River Is Blue

John Pizzarelli

I used to think of loneliness  
As a smile that went away  
Or a game some tried to play  
But with you gone and me alone  
There's really a not more to say

Solo sambas and midnight air  
'Triste' and Jobim everywhere  
The smile is gone but so are you  
And tonight the river is blue

Blue note bossanova's catching me  
Pacific sunsets that I can't see  
The game is gone but so are you  
And tonight the river is blue

~~~♪♪♪ ~~~

Letters I write to you  
They cannot show you truth  
Just how I manage without sweet you  
The world won't stop while you're away  
But tonight the river is blue

The world won't stop while you're away  
But tonight, tonight the river is blue  
The river is blue
