

# You'll Get Your Wings

John Reuben

I am more than my number  
(I am not just a number)  
(I'm not just another number)

Never sold my soul to the devil  
Pushed past the threshold, I'm so very special  
Not in a "four" way, in a "more" way  
You say - how's that possible?  
'Cause in your mind it isn't really logical  
All you can see is 1 2 3  
4 5 6 7 8 9 but what if what if  
There's another number to strive to get  
I accomplished it  
Don't box me in I'm not limited  
A perfect man is what I am  
A number 10 on the enneagram (yup)  
Double double digits, yeah I done did it  
Cause a singular world is just too rigid  
The major rules need to be rewritten  
Hit me one day when I was sitting in the kitchen  
Reach inside the cosmos, felt something pivot  
Deep inside of me something started clicking  
Should this much knowledge be forbidden?  
Why stop at 9 when the universe is infinite?  
I had an epiphany - keep counting  
10 11 12 13 14  
With the super power wing that touches infinity  
So many numbers, I'm all of the numbers  
And if you don't know your number yet  
You can take a test  
Take another test  
Keep taking the test until you're obsessed

You'll get your wings  
You'll get your help  
You'll get your own help You'll find yourself  
Ain't nobody like no one else

Ain't nobody like no one else

Enne-what? Number what?  
Oh you think? That's not what I thought I was  
No - that's not what I thought I was  
No - that's not what I thought I was

One for the beat that's been perfected  
Two for the hypeman with the helping hand  
Three for achievement and ambition  
Where's all my big city dreamers and dusty desert mystics  
Investigate - don't stop digging  
To all my social introverts in the building  
Who's got your back through the thin and thick of it  
Make some noise if you're enthusiastic  
Down in the mosh pit, that's real leadership  
Finish your initiatives and peace be with  
I'm tough as they get, I'm sensitive  
I'm this I'm this I'm this I'm this

I'm free from numeric restrictions  
Look into my eyes how fiercely passionate  
I took this test and I mastered it  
Want to know what comes after it? Well

You'll get your wings  
You'll get your help  
You'll get your own help You'll find yourself  
Ain't nobody like no one else  
Ain't nobody like no one else

Enne-what? Number what?  
Oh you think? That's not what I thought I was  
No - that's not what I thought I was  
No - that's not what I thought I was  
[x2]
