

Somebody's Gonna Love Her

John Schneider

[Verse 1]

She's out alone and on her own
For the first time in years
And her whole world's come tumblin' down
But she's holdin' back the tears

[Verse 2]

An unknown place, a stranger's face
She's just lookin' for a friend
They all saw her comin'
The moment she walked in

[Chorus]

And somebody's gonna love her
Before the night is through
'Cause she's just lost most everything
She used to hold onto
She just needs someone to comfort her
And a nice word or two
But somebody's gonna love her
Before the night is through

[Verse 3]

A broken heart is an easy mark

When you're lost and all alone
And it's nights like this a woman lets
Her defenses go

[Verse 4]

If someone smiles and talks a while
Oh, she'll weaken just enough
And lord it's hard to say good night
When you need someone so much

[Chorus]

So somebody's gonna love her
Before the night is through
'Cause she's just lost most everything
She used to hold onto
She just needs someone to comfort her
And a nice word or two
But somebody's gonna love her
Before the night is through

[Outro]

Yeah, somebody's gonna love her
Before the night is through
