## **Something Terrible**

## John Smith

Paroles de la chanson Something Terrible:

It hurts me man, it cuts me like a knife

See when it's in, it turns and pains me more

I pull it out, it stays right on my mind

'Cause I love something terrible

It kills me man, it hits me like a train

And I hear her moan, when I'm fixing up to runaway again

I can't climb home, my legs are good as gone

'Cause I love something horrible
I love something terrible
It f\*cks me man, it f\*cks me in the head
And when my sentences just dissipate these things
I should have never said
I'll try again, I hope that she's okay
'Cause I love something terrible
I love something horrible
