All In

John Splithoff

Sometimes a good thing can fall apart
Never thought we'd get a second chance
Did you think about me in the dark
Like I thought you'd find a better man

Somehow I found you
Miles and miles away
Now I'm back around you
I'd give you all my days

If you're in I'm all in
Cause I've always been so all about you
If you're down I'm so down
I'd just be dying if I'm living without you
Living without you

Walking back to your house
Has me thinking that we're still sixteen
Been a minute since Chicago
But I'm never waking from this dream

So glad I found you
Miles and miles away, oh
Now that I'm back around you
I'll give you all my days, yeah

If you're in I'm all in
Cause I've always been so all about you
If you're down I'm so down
I'd just be dying if I'm living without you
Living without you
Just be dying if I'm living without you
Living without you
Just be dying if I'm living without you
Living without you

Ooo, I'm all in
Ooo, I'm all in
Ooo, I'm all in
Ooo, I'm all in
...
