

# Inside Out

John Splithoff

It's the way  
You know me  
Better than I know myself  
It's like nobody else

It's the way  
You know me  
Better from the inside out  
You turn me inside out  
You turn me

It's the way that you read me  
No I don't make it easy when I'm guarded  
Then you play and you tease  
Pull me close and then it leads to your apartment

You love it when our nights are sleepless  
You see me when the lights go down  
Touching you can be so healing  
Don't know  
You figured me out

Cause it's the way  
You know me  
Better than I know myself  
It's like nobody else

It's the way  
You know me  
Better from the inside out  
You turn me inside out

It's the way  
You know me  
Better than I know myself  
It's like nobody else

It's the way  
You know me  
Better from the inside out  
You turn me inside out  
You turn me

My head's been racing  
Grand central station  
Spending all this time along  
I think I'm going crazy  
Don't know if you got me  
In your rotation  
But if we can stop and go  
There won't be any hesitation

Oh you always keep me coming back  
Gotta slow down the moment make it last  
When you stir your hips and arch your back  
Then you melt into me like Alex Mack

Cause it's the way  
You know me  
Better than I know myself  
It's like nobody else

It's the way  
You know me  
Better from the inside out  
You turn me inside out

It's the way  
You know me  
Better than I know myself  
It's like nobody else

It's the way  
You know me  
Better from the inside out  
You turn me inside out  
You turn me

You love it when our nights are sleepless  
You see me when the lights go down  
Touching you can be so healing  
Don't know  
You figured me out

It's the way  
You know me  
Better than I know myself  
It's like nobody else

It's the way  
You know me  
Better from the inside out  
You turn me inside out

It's the way  
You know me  
Better than I know myself  
It's like nobody else

It's the way  
You know me  
Better from the inside out  
You turn me inside out  
You turn me

It's the way  
It's the way
