

Kyoto Snow

John Splithoff

You've had me on a high
I'm coming down slow
Like Kyoto snow
Loose ends and long goodbyes
To hanging on to every word you say
Near or far away

Say the word
I'll be coming over
I'll be running there
You can tell me what you're feeling
I'll show you I care
I'll be coming over
You might be unaware
I've been waiting in disrepair

I hope that I don't have to wait too long
In our afterglow where any pain goes numb
Nothing and no one could ever come close
It's all I've been thinking of

I hope that I don't have to wait too long
Want to let you know where I've been coming from
Something in your love that makes me crumble
And it's all I've been thinking of

Say the word
I'll be coming over
I'll be running there
You can tell me what you're feeling
I'll show you I care
I'll be coming over
You might be unaware
I've been waiting in disrepair

I hope that I don't have to wait too long
In our afterglow where any pain goes numb
Nothing and no one could ever come close
It's all I've been thinking of

I hope that I don't have to wait too long
Want to let you know where I've been coming from
Something in your love that makes me crumble
And it's all I've been thinking of
