

Note To Self

John Splithoff

Tell me, what are you gonna do with all that ambition?
You can keep your up in the clouds till the end of time
I think you're trying too hard to put on an exhibition
And make something that everybody can get behind

Oh, but doin' what you do ain't never really been a decision
And if you're feeling used, oh baby, you're mint condition
So when it's win or lose, you gotta follow that intuition
And love you for you, cause everybody's trying to get through
Yeah everybody's trying to get through

Everybody's trying to get through
Everybody's trying to get through
Everybody's trying to get through
Everybody everybody

Everybody's trying to get through
Everybody's trying to get through
Everybody's trying to get through
Everybody everybody

Everybody's trying to get through
Everybody's trying to get through
Everybody's trying to get through
Everybody everybody

Everybody's trying to get through
Everybody's trying to get through
Everybody's trying to get through
Everybody everybody
