Proud

John Splithoff

I just wanna be honest with ya
I never wanna break a promise to ya
I said I was home doing nothing now
When twenty minutes later I was going out
Lost track of time, sorry, I was drinking
I started dancing and I stopped my thinking
I might've met somebody tryna take me home
I didn't mention you but I didn't go

'Cause I don't wanna hurt this
And you don't deserve this
But nobody's perfect, no

I know we've done some things that we ain't proud of, baby
But that don't mean that I don't love you now, baby
I know how to go too far
You know how to break my heart
I know we've done some things that we ain't proud of
Can we forget about it?
Can we forget about it?

It's 2 AM, I hear your phone buzzing
I see you typing, you say, "Oh, it's nothing"
But you don't wanna tell me it's another ex
'Cause every time you do it makes another mess
I plan a weekend, I can't wait to see ya
But then you cancel right before I meet ya (great...!)
But you don't got a reason, you don't even say
You tell me that you're sorry on a Monday

'Cause I don't wanna hurt this
And you don't deserve this
But nobody's perfect, no

I know we've done some things that we ain't proud of, baby
But that don't mean that I don't love you now, baby
I know how to go too far
You know how to break my heart
I know we've done some things that we ain't proud of
Can we forget about it?
Can we forget about it?
