

Thrive

John Splithoff

My apprehension can be so unforgiving
Trying to wrap my head around my state of mind
Call into question the kind of life I've been living
Am I out of touch and wasting all my time?

Oh it's been the same shit, different day
And it's so hard to navigate
When people change for better or for worse
But if I could get rich off slot machines
With a big stretch limousine
To take me home, riding in reverse

Just know that
It's not the money on my mind
But when I get it right, I'ma get it

So you can watch me thrive
I'll be living my best life
Don't even have to try
For you to see me thrive

Oh it's been the same shit, different day
And it's so hard to navigate
When people change for better or for worse
But if I could get rich off slot machines
With a big stretch limousine
To take me home, riding in reverse

Just know that
It's not the money on my mind
But when I get it right, I'ma get it

So you can watch me thrive
I'll be living my best life
Don't even have to try
For you to see me thrive
