

# Vagabond

John Splithoff

If it wasn't for the way we last departed  
You'd still have that grip on me  
The same kind of grip from when we started  
The kind that squeezed the life from me  
And I just can't sustain the notion  
That you'd fall so far from home  
No more drownin' in your ocean  
No more threads I need to sew

Oh, you contain yourself within your illusion  
Oh, 'cause you can't sit still

You're just a vagabond  
You take too long to find what you're looking for  
'Cause you know you gotta get gone, gotta get gone, gotta get gone  
Oh, and one of these times, you just might find the place that you're lookin  
g for  
But for now you gotta get gone, gotta get gone, gotta get gone

If it wasn't for the way you never told me  
You'd be leaving for a while  
I wouldn't be runnin' downtown searchin' high and low  
For the one who used to make me smile  
It takes so much sweet devotion  
To keep on followin' when you go  
'Cause when you never look back, you never look back  
You're always gonna be alone

Oh, you contain yourself within your illusion  
Oh, 'cause you can't sit still

You're just a vagabond  
You take too long to find what you're looking for  
'Cause you know you gotta get gone, gotta get gone, gotta get gone  
Oh, and one of these times, you just might find the place that you're lookin  
g for  
But for now you gotta get gone, gotta get gone, gotta get gone

Well our love is running away  
Well our love is running away  
Well our love is running away  
Well our love is running away

You're just a vagabond  
You take too long to find what you're looking for  
'Cause you know you gotta get gone, gotta get gone, gotta get gone  
Oh, and one of these times, you just might find the place that you're lookin  
g for  
But for now you gotta get, gotta get, gotta get gone, get gone

You're just a vagabond  
You take too long  
You know you gotta get gone, gotta get gone, gotta get gone  
Vagabond  
You take too long  
Gotta get, gotta get, gotta get gone, get gone  
Gotta get, gotta get, gotta get gone, get gone

Gotta get, gotta get, gotta get gone, get gone
