

What If She Wants You

John Splithoff

It takes so long for her to show
The way she really feels when you're alone
But you want her so bad and she knows (yeah)
She bites her bottom lip and draws you in
Her nails crease up and down your skin
But you want her so bad and she knows

She says, "I know that you want me
I know that you need me (yeah)
I got you caught up in my web and I won't let go
But what if I want you?
What if I need you?
'Cause you're all up in my veins and I won't let go"

What if she wants you? What if she needs you?
Can the touch of her skin put your mind at ease?
What if she wants you? What if she needs you?
When her walls fall down, you know your mind is free

Oh-oh-oh, yeah
Yeah-eah-eah

Oh you love it when she toys with you
You say, "Tease me, baby, tease"
She'll take her time to give it up
So you're begging, "Baby, please"

What if I want you? What if I need you?
I got you caught up in my web and I won't let go

What if she wants you? (What if she wants you?)
What if she needs you? (What if she needs you?)
Can the touch of her skin put your mind at ease?
What if she wants you? (What if she wants you?)
What if she needs you? (What if she needs you?)
When her walls fall down, you know your mind is free

What if she wants you? What if she needs you?
Can the touch of her skin put your mind at ease?
What if she wants you? What if she needs you?
When her walls fall down, you know your mind is free
