

# Omaha Rainbow

John Stewart

Keeping my eyes on the Omaha rainbow  
Making the rain go, out of my way  
Keeping my eyes on the Omaha Rainbow  
Going down the same roads, as my younger days

And I remember the name, Ernesto Juarez  
Wherever the man says, we got to go  
There's going to be a change, Ernesto Juarez  
But it's a long way to August, I got a lot of roads to go

Yeah, and even if I go, out to California  
I've got to warn you, what I'm going to say  
Yeah, and even if I go, out to California  
It's a long way to August, picking up friends along the way

So keep your eyes on that far distant star  
And the sun's gonna to shine where you are  
Oh keep your eyes on that far distant star  
And the sun's gonna to shine where you are

Keeping my eyes on the Omaha rainbow  
Making the rain go, out of my way  
Keeping my eyes on the Omaha Rainbow  
Going down the same roads, as my younger days
