

# Somewhere Down The Line

John Stewart

We will find the golden road  
Somewhere down the line  
If we don't, we all were sold  
Somewhere down the line  
When we were young and we'd shine  
And I believe it's getting closer all the time  
We will find the golden road  
Somewhere down the line

I will leave my worries go  
Somewhere down the line  
Live those dreams that I will sow  
Somewhere down the line  
When I was young and it'd shine  
But I believe it's getting closer all the time  
We will find the golden road  
Somewhere down the line  
Oh, somewhere down the line

Somewhere down the line  
Somewhere down the line  
When I was young and it'd shine  
But I believe it's getting closer all the time  
We will find the golden road  
Somewhere down the line  
Oh, somewhere down the line
