

Better Than This

John Summit

Can't get better than this
Can't get better than this

I don't wanna go away
I wished this happened every day
I'm looking at the bright lights
But still chasing fireflies

We don't know where we are
But we're still dancing on a star
Now we're looking at the bright lights
Now we're still chasing fireflies

Can't get better than this
Can't get better than this
Can't get better than this
Can't get better than this
Can't get better than this
I don't wanna be nowhere else
Can't get better than this
Can't get better than this
Can't get better than this
Can't get better than this

Can't get better than this
I don't wanna be nowhere else (I said)
Can't get better than this
Can't get better than this
Can't get better than this
I don't wanna be nowhere else
Can't get better than this
Can't get better than this

I don't wanna go away
I wished this happened every day
I'm looking at the bright lights
But still chasing fireflies
