

Go Back

John Summit

I knew it from the start
You'd leave me in the stars
Like heaven in the dark
I'm a dreamer, take me deeper

Tell me it's more than a memory
'Cause deep in my heart, you belong to me
Gave you a part of my soul to keep
Forever, forever

When I hear that sound
And the lights go down
I wanna go back, I wanna go back
When the silence fades
And I fall like rain
I wanna go back

When I hear that sound
And the lights go down
I wanna go back, I wanna go back
When the silence fades
And I fall like rain
I wanna go back, I wanna go back

I'm frozen in that time
But melting in your eyes
Feel our worlds realign
I'm a dreamer, take me deeper

Tell me it's more than a memory
'Cause deep in my heart, you belong to me
Gave you a part of my soul to keep
Forever, forever

When I hear that sound
And the lights go down
I wanna go back, I wanna go back
When the silence fades
And I fall like rain
I wanna go back, I wanna go back
Go back, go back, go back, go back...

When I hear that sound
And the lights go down
I wanna go back, I wanna go back
I wanna go back, I wanna go back
I wanna go back, I wanna go back
I wanna go back, I wanna go back
I wanna go back, I wanna go back
I wanna go back, I wanna go back
I wanna go back, I wanna go back
I wanna go back, I wanna go back

When I hear that sound
And the lights go down
I wanna go back, I wanna go back

When the silence fades
And I fall like rain
I wanna go back, I wanna go back
When I hear that sound
And the lights go down
I wanna go back, I wanna go back
When the silence fades
And I fall like rain
I wanna go back, I wanna go back

I wanna go back, I wanna go back
I wanna go back, I wanna go back
I wanna go back, I wanna go back
I wanna go back, I wanna go back...
