

palm of my hands

John Summit

No shits are given
It's my life, I'ma live it
I don't need your permission
Flying solo on a mission

It's my own game, I'll play it on my own
Where I end up, only Heaven knows

I've got the world in the palm of my hands
All I know
I've got no master plan
But I know I've got the world in the palm of hands
The more I know
The less I understand
But I know
I've got the world in the palm of my hands

Been too high all summer
Playing Stevie Wonder
You could call me prima donna
And I'll fuck up where I wanna

It's my own game, I'll play it on my own
And where I end up, only Heaven knows

I've got the world in the palm of my hands
All I know
I've got no master plan
But I know I've got the world in the palm of hands
The more I know
The less I understand
But I know I've got the world in the palm of my hands

I've got the world in the palm of my hands
I've got the world in the palm of my hands
