

Resonate

John Summit

Show me where the city shines
I'll follow you into the light
A frequency the same as mine
I wanna I see it through your eyes
The moon and stars and the sky
Slowly letting go of time

Every time you whisper to my heart
Suddenly I'm right here where you are
Feel like I'd been with you from the start
From the start

I love it when we resonate
I love it when we resonate
I love it when we resonate
I love it when we resonate
I'm all yours soon...

I'm lighter than I've ever been
Don't wake me if it's just a dream
These colours I have never seen

Every time you whisper to my heart
Suddenly I'm right here where you are
Feel like I'd been with you from the start
From the start

I love it when we resonate
I love it when we resonate
I love it when we resonate
I love it when we resonate
I'm all yours soon...
