John Summit

You, where are you?
Hiding where the light is
Sunset on your eyelids
Do, do you do
Things to make you happy?
Life, it never could be

You should know this
I only wish your wishes come true
And I could make my memory new
But you, I would never undo
But you, I would never undo
But you, I would never undo

Undo, undo, undo, make my memory new
Undo, undo, undo, make my memory new
Undo, undo, undo, make my memory new
Undo, undo, undo

Kiss on your lips
Never ever lonely
Exactly where you should be
And I'll take a hit
'Cause I only mess up
Everything that I touch
But you, I would never undo

You should know this
I only wish your wishes come true
And I could make my memory new
But you, I would never undo
But you, I would never undo
But you, I would never undo
But you, I would never undo
But you, I would never undo

But you, I would never undo
